

## M2 Mahs-Informatique

DST 10/12/18

### 1° Presentations

Choose one presentation you heard this semester (Book/ movie review or Geek of the Week - not your own !) and give a summary of the contents

(80-100 words – 4 points)

### 2) Neural Networks

Explain in your own words the basic principles of neural network. You may include a graph or drawing to help with the explanation.

(150-200 words – 8 points)

### 3) Vocabulary

Give 10 words / expressions you learnt this semester. Give an explanation or equivalent for each word. (5 points)

### 4) Computer humour

Explain in your own words the following joke (3 points) :

Programmer : Son, can you count to 10 ?

3-year-old son : 1... 2...

Programmer : Stop ! You're not my son.

Bonus : write a computer / programming joke of your own ! (2 points max)
